Log No. C-689
Received: April 3, 1995
RCRA - Closure

Dear Mr. Schultz:

This letter is in response to Lt. Commander V. Racanelli's letter dated March 28, 1995 which was received by this Agency on April 3, 1995. This letter contained a summary of laboratory analyses performed as part of RCRA closure of a hazardous waste container storage area known as Building 520 at the above-referenced facility.

Based upon a review of all available information, it appears as though closure of this unit has been completed in accordance with the approved closure plan. Detailed information regarding closure activities at this unit should be submitted in the form of a closure documentation report developed in accordance with Condition 3 of the Agency's March 29, 1994 closure plan approval letter.

In accordance with Condition 1 of the Agency's December 30, 1994 closure plan approval letter, closure activities should be completed by October 1, 1995 for the remaining four hazardous waste container storage areas located at the above-referenced facility. This areas are as follows:

- a. Building 105: Former Laundry S01 Area
- b. Building 145: S01 Area
- c. Building 415: Navy Exchange S01 Area
- d. Building 912: Navy Resale Activity Laundry S01 Area

Except as modified by this letter, closure activities should be conducted in accordance with this Agency's December 30, 1994 closure plan approval letter (C-681).
